

REMARKS

The title of the invention has been amended and the specification has been amended to cross-reference related applications.

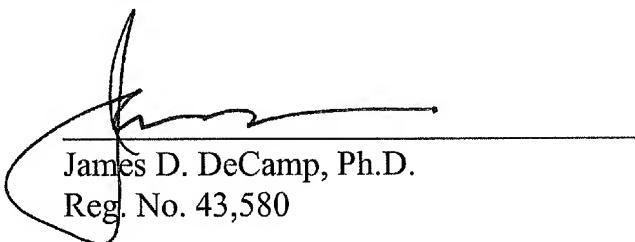

In addition, the paragraph beginning at page 14, line 28, of the English language specification has been amended. This amendment is supported by the known fact that viruses belonging to Orthomyxoviridae, Bunyaviridae, and Arenaviridae are minus-strand RNA viruses, but not "*non-segmented* minus-strand RNA viruses." No new matter has been added by the present amendments.

A courtesy copy of the present specification is enclosed, but the World Intellectual Property Office (WIPO) copy should be relied upon if it is already present in the U.S. Patent and Trademark Office file.

If there are any charges or any credits, please apply them to Deposit Account No. 03-2095.

Respectfully submitted,

Date: 21-Sep-2006
